

NEW Urban Bees and Gardens Bee Projects

Community Bee Project

Distributing hives across the Portland area to

- improve bees' survival
- achieve greater local food security
- reduce neighborhood poison exposure
- replace fears with facts about bees' benefits

Project needs:

- members to join
- spread the word through your socmed network

Flying Tree Hives

Revolutionary hive material and designs.

Three models in 2017:

- Square Tree Blanket
- 3-foot egg cup
- Parabolic long box

Project needs skills and partners for:

- CADD drafting , 3D printing , mold making , manufacturing
- help with kick starter campaign

In-school Observation Hives

A local bee patron is offering two schools to receive see-through hives.

Project needs parents, teachers, local businesses and organizations to use our [education guide](#) to join us in bringing bee based learning to children
